

The Professional's Edge Since 1936

A NOTCH ABOVE THE REST

Pro+ Fixed T-Bar also available

Back of channel has notches for precise indexing and centering

PRO+ HANDLE AND NOTCHED CHANNEL

Our newest quick release handle and channel provide the professional with the latest features to get the job done right

Ettore's Pro+ notched channel and handle bring you the best features available in window cleaning. The notched channel provides for precise indexing & centering. New and improved Quick Release™ allows for easy channel adjustment or fast rubber change. Click-Lock™ safety feature secures tool to Ettore Rea-c-h poles eliminating the risk of falling tools from high windows. The ergonomic over mold offers a comfortable, non-slip grip. Extra length handle is ideally suited for larger hands. World famous Ettore rubber features a razor sharp edge for consistently clean and streak-free windows. Made with brushed stainless steel and plastic.
