

Chair Seating Guide

The information below is intended as a general guide to seating, offering a suggested range for how many chairs will fit different fully assembled bases and tops from our Juggernaut crank table and Vasi base collections.

To determine the number of chairs that can be placed comfortably around a table, consider not only the table's dimensions but also its leg style/placement, overhang and the width of the chairs.

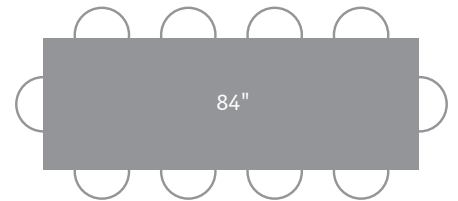

Our guide below allows an industry standard 24"-wide place setting for each person.
