

MALTA DYNAMICS

# RAZORBACK ELITE MAXX RESCUE HARNESS

The Malta Dynamics Razorback Elite MAXX Rescue harness combines innovation with functionality. This lightweight harness features a comfortable and secure fit stemming from the sewn-in waist belt and quick-connect buckles on the chest and legs. Complete with breathable, reflective padding on the shoulder and legs, this rescue harness also features reflective stitching throughout the webbing. Easily connect self-retracting lifelines without having to adjust the webbing utilizing the back D-Ring with two additional attachment point's. The D-Ring also features an upright position to eliminate unwanted movement. Featuring a chest strap that is lower than a traditional harness, this must-have equipment offers built-in rescue handles and a comfortable fit.
