

# InsulSafe® SP

Premium Loose Fill  
Fiber Glass Insulation

## The trusted choice from the innovators of premium blowing insulation

InsulSafe® SP premium loose fill insulation was developed to provide you with the reliable coverage that you expect from CertainTeed. InsulSafe SP improves energy efficiency and reduces energy consumption,\* making it a perfect fit for new construction projects as well as retrofit applications. Because it is blown in, it fills in even the most hard-to-reach areas of the attic. InsulSafe SP provides consistent coverage for lasting comfort and R-Value stability for the life of your home from a name you can trust.

### InsulSafe SP has great potential in the retrofit market:

It is estimated that 90% of existing U.S. homes are under-insulated,\*\* and adding insulation to a home's attic is the easiest and most cost-effective way to improve energy efficiency and reduce utility bills.\*

\*\* NAIMA.org

### Better Coverage

Engineered to provide consistent, low-dust coverage.

### Better Productivity

Proven coverage that meets your high expectations to keep you on schedule. Installs easily using a wide range of blowing machines and settings.

### Thermally Efficient

Compression packaging provides a high R-Value with less bags.

### Will Not Settle

InsulSafe SP maintains its R-Value and will not rot, decay or corrode.

### Sustainable

Made with recycled and renewable materials, InsulSafe SP lasts for the life of a home, which improves energy efficiency and reduces energy consumption.\*

### GREENGUARD® Gold Certified

InsulSafe SP is third-party certified for indoor air quality.

### Warranty

Backed by a limited lifetime warranty against manufacturing defects.

\* Savings vary. Find out why in the seller's fact sheet on R-Values. Higher R-Values mean greater insulating power.
