

Press Release August 2015.

Cymbomute

Keep the Feel – Cut the Volume.

Cymbomute.com opened for business in Spring 2013. Now over two years on, Cymbomute, the class leader in cymbal practice mutes, is a fast growing global brand. Cymbomute practice mutes allow drummers to retain the use and feel of their REAL cymbals when volume is a constraint. Simply stretch the mute around the cymbal rim, let the ready-to-go centre fold develop, and you're 'back to bronze'! No more 'pad aim', no more 'rubbery rebound' – just play.

Great for hearing protection, great for neighbour relations, great for in-building sound travel, but best of all – *you can practice on the same cymbals you perform on.*

In 2013 we brought you the original Cymbomute. 2014 saw the launch of Cymbomute GOLD. A recent development was the popular change to dual sizing; now each mute fits two cymbal sizes.

And now...(drum roll please) we are **Launching Cymbomute WIDE RIDE**. On sale from 1 Aug 2015, the Cymbomute Wide Ride is the latest product from Cymbomute Ltd. With 100mm width of material muting the cymbal, rather than the standard 50mm, the WIDE RIDE mute gives even more volume reduction for cymbals sized 18" – 24". Now, in combination with the original Cymbomute & Cymbomute GOLD, drummers can attenuate cymbal volume, optimize their practice, and enjoy (quietly!) playing their treasured cymbals.

Cymbomute remains a 100% British made, high quality product. Available to fit cymbals from 06"-24" buy individually or in multi-packs and join 1000's of drummers around the world who use Cymbomute. You can become part of the #cymbomute community, connect via facebook, instagram or twitter.

Search online for Cymbomute to find us, buy and connect.

#cymbomute

"...perfect for my practice set-up"
– **Steve White**
– UK Drumming legend.

"...a clever solution to a longstanding problem. We love them and so do our neighbours"
– **Rhythm Magazine U.K.**

"...allows the drummer to retain the feel of cymbal articulation & motion" – **Russ McKinnon**
– US Session drummer / Tower of Power.

"I've tried everything from electronic drums to other silencing products but nothing beats the Cymbomute. My drum set is in our house with neighbours downstairs and they don't hear a thing now! I like the feel of a real cymbal and the cymbomute gives you just that...the hi hat silencer is awesome."
