Cymbomute

Keep the Feel – Cut the Volume.

NEW 2-PACKS for Spring 2016

Cymbomute.com went live in Spring 2013. Three years on, Cymbomute, the class leader in consumable cymbal practice mutes, is still a fast growing global brand. Cymbomute practice mutes allow drummers to retain the use of their REAL cymbals when volume is a constraint. Simply stretch the mute around the cymbal - each mute has a ready-to-go centre fold to keep it seated on the rim. Practice is 'Back to Bronze'! No more 'pad aim', no more 'rubbery rebound' – just play! When replacements or additions are required there is a comprehensive range. They are available globally via cymbomute.com and are also held and shipped by Amazon across Europe and the USA.

Now: for Spring 2016 Cymbomute has released 4 new 2-Packs.

Based on buying trends, Cymbomute has done the bundling for you, *and* reduced the cost!

- The 8/9 & 10/11 Pack is perfect for your Splash cymbals.
- The 12/13 & 14/15 Pack for your HiHats, larger Splashes or small Crashes.
- The 16/17 & 18/19 Pack will mute your Crashes.
- The 20/21 & 14/15 Pack is features a WIDE RIDE mute and the most common HiHat size – the ultimate practice solution for your HiHat and Ride.

<u>Pack Code</u>	<u>MSRP GBP</u>	<u>MSRP USD</u>	<u>MSRP EUR</u>
