- Adding products to the websites with correct categories, tags with optimizing contents and images.
- Maintaining product inventory and point of sale applications (POS)
- Adding collections to the websites.
- Implementing new designs, features to the websites.
- Testing websites for cross-browser compatibility
- Fixing issues and bugs
- Developing landing page for marketing needs.
- Installing and maintaining applications according to the requirements of the company.
- Setup email template like abandoned cart email, thank you email, etc.

01/2021 – Present

A 4700 140th Ave N, Ste 112, Clearwater, FL 33762

MOXĒ

Shopify Web developer

At present I'm working here as a Shopify Web Developer for bemoxe.com. It is also a Remote job and I am working with their team.

My roles here are:

- Facing everything related with the code.
- Creating landing page with liquid coding.
- Adding new features if necessary.
- Working with product page. Creating new version/design of Product page for selected products.
- Fixing issues and bugs
- Making theme easy for other team members.

EDUCATION

2016 – 2017	**BASIS Institute of Technology & Management (BITM)**
Certified Course of	**Mastering in eCommerce Web Development**
2013 - 2014	**Islamic University**
Masters of	**Law**
2009 - 2013	**Islamic University**
Bachelors of	**Law**

RELEVANT SKILLS

Besides Shopify I have a moderate level of experience on **WordPress and WooCommerce**. I can setup a complete WordPress WooCommerce website.

I have also working experience of **product listing**, creating **enhanced Brand Content (EBC) design** on **Amazon** and as well as on **eBay**.

Everything I have attached here about my experience is not so much. I always remember that I am a Lerner and still learning about new updates and changes.

Thanks
Raihan Kabir
