Inches

1. Before printing this ring sizing guide, make sure that page scaling is set to "NONE" in your printer settings area.
2. Measure the line on the left with a ruler to ensure it is exactly 2 inches. If the measurement isn't accurate, please review your print settings again.
3. Be sure you are printing full size.

Method 1 - Paper Sizer

1. Carefully cut out the paper sizer below. Be sure to make a small slit in the end for the ruler to slide through.
2. Wrap the sizer around your finger with the numbers facing out and slide the rounded end through the slit.
3. For an accurate measurement, pull the sizer tight over the widest part of your finger. This could be a knuckle.
4. Read the number that lines up next to the slit. This is your ring size.
