Circus 250

Designer- Resident Studio/ Year 2018

Circus is a remarkable system of interconnected rings which can be arranged in sequence to create striking vertical decoration. Designed by Resident Studio, each brass ring projects an elegantly diffused warm LED lightsource outwards around a 360 degree plane.

The revolutionary plug and play system allows for power sharing between rings and a large range of variations to suit spaces of various shapes and sizes. Circus is a theatrical and truly flexible system ideal for commercial and residential environments
