

# Avro Rug

**MATERIAL** > 80% Wool, 20% Viscose

The Avro is a hand-knotted rug with a subtle textured pattern designed to create understated tonal variations. Lending to a minimalist style, the Avro creates an organic foundation for any space. The Avro's name and geometric lines pay homage to the Canadian airplane design that shares its name. Handcrafted in India using New Zealand wool, it is available in three sizes and two warm neutral colorways. Perfect for entryways, living spaces, and bedrooms. Each of our handmade rugs has unique characteristics that showcase the artistry of the craftsman that created it. Sizes shown are approximate. Finished size may vary slightly.
