

Beaconsfield Chair

ASSEMBLY INSTRUCTIONS

KEEP ALL PACKAGING MATERIALS UNTIL YOU HAVE VERIFIED ALL COMPONENTS AND PARTS

1. Gently rest the back of the chair onto a clean, flat surface.
2. To install the wood legs, align the threaded rod found at the top of each leg, with the holes located on the underside of the design.
3. Flip chair upright. We recommend turning your piece upright with 2 or more people to avoid excess pressure on any individual leg.

Preventative Measures: Leather

Our leathers are chosen to age beautifully and develop a rich natural patina over time. Hides have been carefully selected for their raw natural surface characteristics which make each piece unique. To help maintain the appearance of your chair we recommend the leather be dusted with a dry cloth and vacuumed occasionally to remove debris from corners. We recommend Wood legs are cleaned with a damp, soft cloth. Do not use abrasive cleaning products. Depending on use, it may be necessary to tighten the legs periodically to maximize stability.
