

Branch Slatted Shelf

INSTALLATION INSTRUCTIONS

KEEP ALL PACKAGING MATERIALS UNTIL YOU HAVE VERIFIED ALL COMPONENTS AND PARTS.

1. Attach the steel shelf bracks to either side of the slatted shelf with the fastening hardware provided.
2. Determine the placement for the slatted shelf.
3. Align the slatted shelf steel brackets with upright holes. Fasten the slatted steel bracket to uprights with hardware provided.

To help maintain the appearance of your slatted shelf we recommend cleaning the wood surfaces and steel brackets with a damp, soft cloth. Do not use abrasive cleaning products. Depending on use, it may be necessary to tighten the screws and hardware periodically to maximize the stability of the slatted shelf connection to the wood uprights.
