Ash

An ode to warm Nordic minimalism, the Baltic Chair is designed to harmonize with contemporary life. Elegant and compact, with a clean, solid wood frame, it imparts a feeling of calm and lightness. We joined its curved arms at the back to create a sculptural form that can be admired from every angle, adding chamfered edges for a supremely touchable finish. Complete the mood – and your dream reading nook - with the Baltic ottoman.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.

Baltic Chair

- Solid wood frame featuring custom bent armrests and mortise and tenon joints is crafted from walnut or ash.
- Solid ash frame is FSC®-Certified in support of responsible forest management (FSC® 092551).
- One piece seat and back is crafted with high resiliency medium density polyurethane foam.
- Webbed suspension system for comfort.
- Inner frame is kiln-dried FSC®-Certified hardwood in support of responsible forest management (FSC® 092551).
- Wood is a natural material, with variations in grain pattern and colour that make each design unique.
- Bumpers on the bottom of base to protect hardwood floors.
- Manufactured to meet California TB117-2013 fire safety standards without the use of flame retardant additives in the upholstery foam.
- All fabric is California TB117-2013 certified and double rub tested.
- Our leathers may have distinct surface characteristics, natural markings, grain pattern and colour variations which differ from hide to hide and from one product to another, making each leather product unique.
- Surface scratches and wear marks on leather are normal and to be expected. Over time they will contribute to the unique personality, patina and visual charm of the design. If desired, scratches and wear marks may be minimized with the use of leather conditioner.
- With all leather products, some stretching over time is normal. This "working in" of the leather only adds to the comfort, softness and character of the design.
