

Monument End Table

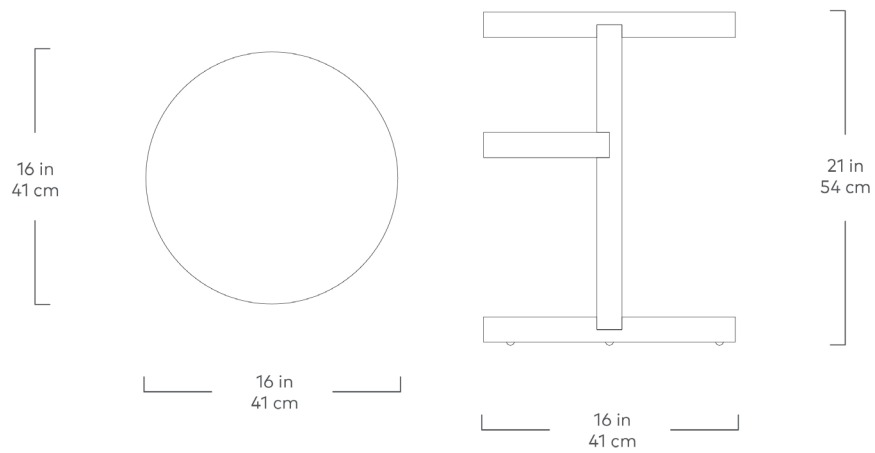

Natural
Bamboo
Ply

The Monument End Table ticks all the boxes of contemporary modern style with its sculptural, functional, and sustainable approach to design. This versatile, handsome accent can be nested with sofas and coffee tables or be used as an end table or stool according to your needs. Stylishly integrated shelves provide a way to keep all the essentials – from phones to remotes – neatly tucked away, yet within reach. The warm tiled grain of sustainable bamboo plywood adds organic, visual dimension while seamlessly complementing the visible joinery.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.

Monument End Table

- 100% renewable bamboo plywood construction.
- Clear coat finish.
- Designed to nest with most sofas, sectionals or coffee tables.
- Can also be used as additional seating.
- Non-marking tack glide feet.
