Mid-century style meets this-century ease. The Towne Sofa features a slender profile, elevated metal base and blind tufted cushions that bring a touch of refinement to contemporary residential or commercial spaces – without sacrificing comfort. Whether you're curled up with a novel or gathered for game night, the Towne sofa makes daily rituals extra special. The frame is constructed with kiln-dried FSC®-Certified hardwood in support of responsible forest management. Also available as a Lounge and Bi-Sectional.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.

Towne Sofa

- Blind-tufted seat and back cushions are crafted with high resiliency medium density foam covered in a Dacron wrap.
- Hidden center leg added for extra support.
- Cylindrical legs are made from black powder-coated steel.
- Non-marking leveler feet can be adjusted for stability on uneven floor surfaces.
- Inner frame is kiln-dried FSC®-Certified hardwood in support of responsible forest management (FSC® O92551).
- Frame is reinforced with steel for long lasting durability.
- 9-gauge No-Sag, sinuous spring suspension system.
- All joints have been stress tested.
- All fabric is California TB117-2013 certified and double rub tested.
- Manufactured to meet California TB117-2013 fire safety standards without the use of flame retardant additives in the upholstery foam.
- Our leathers may have distinct surface characteristics, natural markings, grain pattern and colour variations which differ from hide to hide and from one product to another, making each leather product unique.
- Surface scratches and wear marks on leather are normal and to be expected. Over time they will contribute to the unique personality, patina and visual charm of the design. If desired, scratches and wear marks may be minimized with the use of leather conditioner.
- With all leather products, some stretching over time is normal. This "working in" of the leather only adds to the comfort, softness and character of the design.
