

Silverlake Sofa

ASSEMBLY INSTRUCTIONS

KEEP ALL PACKAGING MATERIALS UNTIL YOU HAVE VERIFIED ALL COMPONENTS AND PARTS.

1. Gently rest the back of the sofa onto a clean flat surface.
2. To attach the steel legs to the sofa, use the provided Allen Wrench to tighten the screws through the mounting plates into the threaded inserts using the washers as shown.
3. Attach the round central leg into the threaded insert as shown. Adjust the leveler foot as necessary.

To help maintain the appearance of your sofa, we recommend spot cleaning the upholstered cushions with a gentle soap and water. The steel legs can be cleaned with a damp, soft cloth. Do not use abrasive cleaning products.
