

## Packaging Your Ratio for Repair

### Important Notes

- Be sure to place everything within your retail box in correct orientation. Remember to wrap the polybag around the machine *before* placing into molded pulp.
- Double-check that your machine cord is wound and **plug is taped down** in recessed area of molded pulp base support with prongs facing *away* from the machine base.

### Do Not Include

Kone Filter | Operation Guide | Microfiber Towel | Carafe | Carafe Heat Lid

*Thank you for taking great care in re-packaging your Ratio.*
