

# Technical Data Sheet

## 5618 Cleaner

Water-Based Paint Material

VOC 95.86 g/L Reg.

Contains Propylene Glycol Monomethyl Ether Acetate

Made in U.S.A.

### Description

5618 Cleaner is a water-based paint material used to rinse colors from the airbrush between colors. 5618 may also be used to dilute Createx Colors paints.

### Usage

#### Cleaner

- Spray 5618 in between colors while painting to partially clean airbrush or spray-gun before using next color.
- Compared to 4012, 5618 is a milder cleaner. When adding 4030 to Createx Colors paints and clears, flushing colors with 4012 is more effective compared to cleaning with 5618.

### Dilutant

- Spray 5618 in between colors while painting to partially clean airbrush or spray-gun before using next color.
- Add 5618 to Createx paint or clear 5 – 10% per volume.
- Compared to 4012, 5618 leaves a higher gloss level in the finished coating. If using Createx 5620 Gloss Clear or 7030 Scenix SSR Gloss Clear, diluting with 5618 creates a glossier coating by about 10%.

### Pot-Life & Storage

5618 does not create a pot-life when added to paint.

Store in an air-tight container in a cool, dry environment away from direct light.

### Health & Safety

Use in a well-ventilated area. Avoid contact with eyes. Wash hands thoroughly with soap and warm water after use. Do not ingest. When spraying or sanding, use a properly-fitting NIOSH approved respirator per the manufacturer's instructions.

Eye contact: Rinse with clean water for 15 minutes. Seek medical attention.

Inhalation: Use in in well ventilated areas and wear a NIOSH approved respirator.

Refer to 5618 SDS for additional information.

### Warranty

This product will perform as claimed if directions are followed. Warranty is limited to replacement or refund value of product. No other warranty is expressed or implied.
