## STEAM SYSTEM

More than just a steam station, Modbar Steam delivers a minimal, modern aesthetic coupled with power and control. Give your customers a full view of their drink being prepared, from espresso pull to rosetta.

# STEAM SYSTEM

Recreate a traditional espresso machine with two Steam systems next to your Modbar Espresso, or set up distinct service areas to suit your workflow. We've even seen cafes add Steam (rather than purchasing a second espresso machine) to boost throughput.
