

POWERISITE

QUICKSTART GUIDE

1. Place your compatible DeWalt battery upon a flat surface in a stable configuration.

2. Attach your PoweriSite unit to the top of the DeWalt battery as shown. Note that PoweriSite will only fit onto the battery's post in the orientation shown to the left.

3. Simply connect your smartphone or other device to one of PoweriSite's USB-A ports. A row of LED lights on PoweriSite shows how much power remains in your battery pack.
