RETEX
INNOVATIVE SOLUTIONS FOR TEXTILE WASTE

THE EDGE
IN SUSTAINABLE BUILDING PROTECTION

## TURNING TEXTILE WASTE INTO BUILDING PROTECTION PRODUCTS!

No need to compromise on quality, now you can protect buildings from damage and reduce waste with RETEX - the edge in sustainable building protection - 100% recycled & recyclable.

RETEX CREATES A CIRCULAR ECONOMY - REPURPOSING WASTE AND RECYCLING IT INFINITELY

RECYCLE

REPURPOSE

REMANUFACTURE

RETEX is made from textile waste such as old workwear & high vis jackets that were diverted from landfill and repurposed into strong and durable temporary building protection that can also be infinitely recycled, all right here in NZ.

"Talk to us today about recycling your PPE, Insulation, used RETEX & other Textile Waste"

WHY RETEX?

CO²

Made from 100% recycled materials and can be recycled infinitely by us, so it never ends up in landfill. Reducing your carbon footprint.

Hard wearing material that can be used both outside & indoors. Doesn't tear when folded or bent.

Easy to cut, bend, glue, tape or screw, making it perfect to protect and surface. Can be painted or printed on. Lightweight & easy to transport.

NZ

Designed, manufactured and recycled in NZ, using NZ textile waste.

TRIED AND TESTED

RETEX has been tested on a number of building sites and has proven its strength and versatility indoors & outdoors.

Common Applications:
- Floor Protection
- Window Protection
- Door Protection
- Scaffold/Bollard Protection
- Temporary Signage & Many More applications

PRODUCT RANGE

Code:	Description:	Size	Kg	M²
