

## MK SPOT REMOVAL KIT™

For Polished Marble Surfaces

Effectively removes spots caused by acidic liquids, foods, or chemicals that have removed the shine or finish from a **polished** marble surface. **MK Polish & Spot Remover** removes spots caused by juices, coffee, tea, alcoholic beverages, condiments, household cleaning products, pet messes and much more.

### Contents

- 1 4 ounce **MK Polish & Spot Remover**
- 1 4 ounce **MK Neutral Floor Cleaner**
- 1 4 ounce **MK Advanced Stone Sealer**
- 1 Spoon
- 2 Hand Buffing Pads (tan / white)
- 1 Sponge
- 1 Terry Towel
- 1 Lamb's Wool Applicator
- 2 Pair rubber gloves

**NOTE: PRODUCT TO BE USED ONLY ON  
POLISHED MARBLE SURFACES!**

**DO NOT USE on BLACK, BROWN or GREEN MARBLES**

### Directions for Spot Removal

**Step 1:** Wet spotted area with small amount of water.

**Step 2:** Apply a spoonful of **MK Polish & Spot Remover** to water.

**Step 3:** Place the **TAN** buffing pad on polish and water and buff spotted area in a circular motion for 2-3 minutes creating a thin watery mixture. **Note:** Depending on size of spot and type of marble, the process may take longer.

**Step 4:** Remove buffing pad. Pick up excess mixture with a sponge. Rinse sponge and then clean area thoroughly with **MK Neutral Floor Cleaner** (following directions on the label).

**Step 5:** Buff dry the treated area using a clean terry towel. **Note:** If spot is still visible or you see a dull haze where the spot was, repeat the above process before proceeding to Step 6.

**Step 6:** Once you are satisfied with the polished appearance, seal area with **MK Advanced Stone Sealer** (following instructions on label) and let dry. Buff sealed area with dry white buffing pad.

**WARNING:** Avoid contact with skin, eyes and clothes. In case of contact, flush thoroughly with water and immediately call physician. Do not swallow. Keep out of reach of children. Store in a dry place.
