**88%** INGREDIENTS OF NATURAL ORIGIN

## **New** cleansing balm for **blonde, white and grey hair** with **powerful antioxidant** and **brightening action.**

Love your blonde, white or grey shade? Simply want to extend the vibrancy of your colour?

Can't find a shampoo on the market that maintains your shade without over-toning?

Did you know?

The problem with many tone-maintenance products is that they make hair look ashy, removing all the light from your colour.

### **The new Vitamin.Recharge.Blonde&co** **is here to rectify that**

Imagine a cleansing balm that focuses on softening, brightening and protecting hair against oxidation?

That is the revolutionary action of its innovative and gentle formula.

It protects and brightens blonde, white and grey hair, extending the life of the colour and preserving its personality.

You will achieve...

- **Moisturised hair**
- **Protection**
- **Vibrant colour for longer**
- **Shine**

---

Results visible from the first application..

---

# Multiple benefits in a single product.

## **VIOLET FLOWERS EXTRACTS**

Its formula is enriched with a natural antioxidant phytopigment complex derived from **lavender, rosemary, violet and chamomile**, which act together to reduce yellow effects in bleached blonde hair.

Flower extracts (lavender, rosemary, violet and chamomile) provide toning properties, for revitalised and incredibly shiny hair.

**Vitamin Recharge Blonde&co.** meets the most specific needs of hair.

Balanced Formula: Its neutral pH makes it suitable for all hair types, particularly light hair (blonde, white and grey) and for sensitive scalp and hair.

Three glass vials containing lavender, rosemary, and chamomile flowers in water. A purple circular graphic is overlaid on the image, containing text about a multivitaminic complex.

Multivitaminic  
complex with  
B1, B2, B6, PP,  
B12, E, BIOTIN,  
PANTHENOL &  
VIOLET FLOWERS  
EXTRACTS

Results...

- **moisturises and brightens**
- **protects against oxidation**
- **neutralises and minimises yellow reflections in lightened hair**
- **extends the life of blonde, white and grey shades without changing their tone**

# Why use
