About: ERIC SHANNON

From one big dog owner to another... Or "How Hank's Health Crisis Began A Quest To Build The Biggest, Most Supportive Dog Beds in America..." (...[that our customers love, love, love](#))

In 2006, Eric started a company called Oh My Dog Supply, selling millions of dollars worth of products, including thousands of dog beds. He sold designer products from hundreds of small manufacturers. The one thing that was hard to find was items for big (and REALLY big) dogs especially dog beds!

A health crisis with his dog, Hank, prompted Eric's quest to find a way to help his beloved pet avoid surgery. He knew feeding and exercising Hank properly wouldn't be a problem. But he didn't know how to ensure Hank always slept on a comfortable supportive surface; that's critical because dogs can sleep 18 hours a day! He set out to solve that problem and Big Barker was born.

These made-in-America, easy-to-clean, guaranteed not to pancake, supportive beds for big dogs can help your big dog and his or her quality of life.

TESTIMONIALS

"My sweet old dog is one happy puppy after a good night's sleep...she used to be grumpy at bed time, not even wanting me to touch her, but now she wags her tail and happily waits for me to tuck her in..." Amy Flowers, Tennessee

"My 11-year-old Lab, who is showing signs of arthritis, absolutely loves this bed" Trisportchick, New York

"This dog bed is absolutely fantastic; the foam is supportive, comfortable and resilient." Rachel

"Another great thing is the ten-year warranty it has to retain 90% of its form and after shopping around for a week that is unheard of from the competition." Scot Blume

The beds cradle and support a big dog's fragile joints better than any other dog bed on the market.
