

Products: **Liquid Rubber Colored Waterproof Sealant, EPDM Primer & Liquid Rubber Seam Tape**

Application: **EPDM Garage Gutter**

Applicator: **DIY**

Location: **Vancouver, BC**

Project size: **120 ft²**

Completion date: **July 2015**

PROJECT DESCRIPTION

The homeowner needed a cost effective, durable, DIY solution for their leaking EPDM gutter. The existing EPDM had tears and loose seams. To replace the liner it was going to cost thousands of dollars which was not an option.

CHALLENGE

Virtually no coatings will stick to EPDM to provide a seamless, waterproof membrane.

LIQUID RUBBER SOLUTION

- EPDM was cleaned with Acetone and wiped clean.
- Liquid Rubber Seam Tape was applied to all joints, seams, penetrations and tears.
- 1 coat of EPDM Primer applied.
- Liquid Rubber Colored Waterproof Sealant was brushed over the entire surface.
- 3 coats were applied for a final coverage of 30 sq ft per G.

Products in the Liquid Rubber line include:

Waterproof Sealant, Foundation Sealant, MetalSafe Sealant, RV Roof Coating, EPDM Primer, Polyurethane Deck Coating (Smooth and Textured), Multi-Purpose Primer, Seam Tape, Geo-Textile
