PROJECT DESCRIPTION

Concrete Koi Pond had cracks and was losing water. Homeowner wanted to stop the leaking water.

CHALLENGE

Finding a product that was easy to use and provide flexible, seamless protection.

LIQUID RUBBER SOLUTION

Being water-based, containing no solvents and easily applied by brush, Waterproof Sealant was the clear choice for waterproofing this pond.

Seam Tape was used to bridge cracks, seams and penetrations.

Approximately 15 ft² per G was used to build the final membrane.
