PROJECT DESCRIPTION

This customer wanted to restore his RV and add a new waterproof coating. It had to seal any leaks as well as have excellent solar reflectivity, to keep the RV cool in the summer. Liquid Rubber RV Roof Coating was the perfect solution to this problem.

CHALLENGE

To provide a durable waterproof coating, that will reflect the sun’s rays and help keep the RV cooler.

LIQUID RUBBER SOLUTION

The roof was cleaned with Liquid Rubber RV Smart Cleaner.

All seams, vents and skylights were detailed with our Liquid Rubber Seam Tape.

Applied 1 generous coat of Liquid Rubber EPDM Primer to the entire surface.

4 coats of our Liquid Rubber RV Roof Coating was applied to the entire surface, to seal any leaks and provide a solar reflective coating.

Products in the Liquid Rubber line include:

WATERPROOF SEALANT, COLOR WATERPROOF SEALANT, METALSAFE SEALANT, RV ROOF SEALANT, COOL FOOT, SEAM TAPE, GEO-TEXTILE
