

Products: **WATERPROOF SEALANT & SEAMTAPE**

Application: **Waterproof Porch Balcony**

Applicator: **DIY**

Location: **Calgary, Alberta**

Project size: **450 sq. ft.**

Completion date: **July 2012**

PROJECT DESCRIPTION

During a renovation, the home owners wanted to replace their failing front porch balcony. It is difficult to bring in large equipment and torches to achieve a low-slope waterproof membrane for such a small area.

PORCH CONSTRUCTION

FINAL MEMBRANE

COMPLETED PROJECT

CHALLENGE

Home owners did not want any fire hazards or obscene smells during the work.

LIQUID RUBBER SOLUTION

Due to the nature of Liquid Rubber products being water-based, there are no harsh smells and dangerous application equipment needed.

Cracks were filled; drip edges, 90 degree angles and seams were sealed with peel and stick SeamTape, then Waterproof Sealant was used to coat the entire area.

3 coats totaling approximately 12 sq. ft. / G were used to achieve an 80 mil (2mm) seamless, fully adhered membrane.

Products in the Liquid Rubber line include:

WATERPROOF SEALANT, METALSAFE SEALANT, SMOOTH SEALANT, TEXTURED SEALANT, TOUGH DIP, SEAM TAPE, GEO-TEXTILE
