

ST125**7mm MICROCHIP***

1.25mm x 7mm ISO FDXB implant in sterile needle and pack with barcode labels for animal identification.

ST125 sterile pack contains; a ready to use disposable syringe, pre-loaded with the 1.25mm x 7mm microchip and a strip of barcode labels.

TECHNICAL INFORMATION

Model:	1.25 x 7mm
Chip Type:	EM4305
Dimensions:	Ø 0.05 x 0.27 in (Ø 1.25 x 7 mm)
Memory:	512 bit EEPROM
Material:	Bioglass
Temperatures:	Storage: -40° to +90° C, 1000 h Operating: -25° to +85° C Peak: 120° C, 100 h; 140° C, 10 h
Operating frequency:	134.2 kHz
Read range:	Dependant on reader and reading environment
Anti-migration:	Parylene coating

***GUARANTEED FOR LIFE**
