

"...a shirt that can be undone without taking it off will make nursing and physician care much simpler...and makes the child feel like a normal child and not one that has to wear a gown or pajamas and therefore sick."

Pam K. Shaw, MD, FAAP

District VI Chair, American Academy of Pediatrics

| | Small (S) | Medium (M) | Large (L) | Extra Large (XL) |
|---|--------------|--------------|--------------|------------------|
| Adult Sizes | | | | |
| Chest | 39-41 inches | 42-44 inches | 45-47 inches | 48-50 inches |
| Length <small>(center back of the neck to hem)</small> | 29 inches | 29 ½ inches | 30 ¾ inches | 31 inches |
| Youth Sizes | S = Size 6 | M = Size 8 | L = Size 10 | |
| Chest | 31 inches | 33 inches | 34 inches | |
| Length <small>(center back of the neck to hem)</small> | 17 ½ inches | 18 ½ inches | 19 ½ inches | |
| <p>💡 Recommended by Rylie: "I like to use one size larger than I usually wear. That way there's plenty of room for my port to be accessed or other medical things under the shirt."</p> | | | | |

Boys and girls are comforted each time they wear our therapeutic garments. That's just the way they designed them!

Rylie Style™ \$95.00 each

Adrienne Style™ = \$189.00 each

"AudreySpirit® is about the child that is inside!" Rylie's Mom

5.0 ★ Ratings and Reviews

"These shirts are fantastic! My daughter has regular infusions and hospital stays and loves the comfort these shirts provide. She loves how they look like regular clothes and not hospital gowns." Christi

"It became a necessity...on the top of the list of things we have to take to the hospital. To have a little more dignity...if you think about it and you aren't able to move or communicate, you would want that too." Hudson's Mom

pal Chicago*

Kids needing frequent health care feel “when our body lets us down, we need something that won’t let us down.” They aren’t sure if their treatment will make them well, so AudreySpirit makes sure they are comforted in any situation!

Medical lines and other devices hang out of clothes making kids look and feel sick. Those lines and devices are connected to tender skin! When lines get pulled up or down over personal clothes or hospital gowns, it hurts! Also, getting treatments usually means pulling a shirt or gown up or down and embarrassingly exposing kids.

AudreySpirit’s garments are as flexible as the special children and youth who need them. Our hallmark is dignity at any place, anytime. Our buttery soft garments let medical lines slide through comfy hidden features and hide medical needs (e.g. ports). They also protect privacy because they only open where necessary!

www.AudreySpirit.com

Rylie Style™

Opens across the shoulder and partially down the front for full, yet modest access to central line sites (e.g. ports), incisions, or monitoring lines. It accommodates orthopedic devices, and eases dressing over the head.

AudreySpirit® Therapeutic Garments are the highest quality functional garments providing complete accessibility with dignity and comfort.

AudreySpirit products are U.S. made, patented (D797409, D736498) or patent pending. Learn about what makes us the best at:

www.AudreySpirit.com

Adrienne Style™

Opens completely flat to ease dressing without painfully repositioning the body, or disconnecting medical lines or interfering with devices (e.g. PICC/IV or orthopedic casts or braces).

Our garments are ideal for children and teens with the conditions below. Kids with these diagnoses designed and tested these functional garments in hospitals, infusion clinics and during home health treatments.

- Autoimmune Disease
- Cancer
- Cerebral Palsy
- Congenital Heart Disease
- Cystic Fibrosis
- Kidney Disease
- Scoliosis/Orthopedic Needs
- Other medical needs

Styles names honor the young person influencing its design.
