MASCARA INGREDIENTS:

Aqua, Euphorbia cerifera (CANDELLA)WAX, Beeswax, CI 77499, GLYCERYL MONO STERATE, Dimethicone, BEES WAX, Triethanolamine, Methyl Parahydroxybenzoate

THE DELICATE DESIGN OF THE EYELINER:

BEFORE USE:

1. Shake the liner pen to make sure the ink saturates the tip faster.
2. Push the button on top of the liner pen until it clicks.
3. Leave it for about 5 minutes, till the ink totally saturates the tip (the tip turns black).

HOW DOES IT WORK:

Five years of dedicated research and thousands of experiments made Vicley Magic Lash Kit happen. We call it magic, but there's solid science behind it. The Acrylates/Octylacrylamide Copolymer does its trick and forms an adhesive film on the liner so the lashes can stay on it.

HOW TO APPLY:

1. Apply the eyeliner along your natural lash line. Put the cap on after application in case the eyeliner dries.
2. Cut your natural lashes and apply the mascara.
3. Wait for the liner to dry and then put Vicley Lashes on it with tweezers. Trim the lashes if necessary.

HOW TO REMOVE IT:

1. Gently lift the lash band off of your skin from the inner corner. Never pull on the lashes to remove, always use the band.
2. Use makeup remover to clean the liner and then put the lashes back into the lash container.

Uses: Up To 25 Wears

WARNING:

1. Do not use the product on broken skin.
2. Stop using the product if allergic reaction occurs.
3. Please keep the product away from children.
