## <section-header><section-header><section-header>

Actions to take if a child has an asthma attack and when to call 999.

Help them to sit up – don't let them lie down. Try to keep them calm.

Help them take one puff of their reliever inhaler (with their spacer, if they have it) every 30 to 60 seconds, up to a total of 10 puffs.

If they don't have their reliever inhaler, or it's not helping, or if you are worried at any time, call 999 for an ambulance.

If the ambulance has not arrived after 10 minutes and their symptoms are not improving, repeat step 2.

If their symptoms are no better after repeating step 2, and the ambulance has

## Still not arrived, contact 999 again immediately.

**Important:** This asthma attack advice does not apply to MART inhalers. Speak to your GP or asthma nurse for more information.
