

CARDIOVIT CS-200 Office

Exercise testing with
maximum freedom

CARDIOVIT CS-200 OFFICE

SCHILLER's CARDIOVIT CS-200 Office is a powerful combination of the wireless MS-12 blue ECG amplifier, and the sophisticated SDS-200 Office software. It brings the benefits of high-end Exercise ECG machines into your PC or laptop.

The CS-200 Office offers cutting-edge diagnostic capability for 12-lead acquisition and analyses with new and improved filters for optimal waveform quality in best diagnostic quality.

DYNAMIC TEST PROTOCOL

Let the system suggest the best exercise protocol, based on the patient's age, body weight and short questionnaire, create your own or modify the predefined standard protocols.

ON-SCREEN WIZARD

The on-screen wizard guides the new user from first to last stage, one step at a time, highlighting the next available function. Optionally enabled or disabled.

AUTOMATIC AND IMMEDIATE ARRHYTHMIA DETECTION

Arrhythmia events are detected immediately and classified as they occur during the exercise, and are displayed in red in a separate window.

INDIVIDUALLY SCALABLE AND EXPANDABLE

The standard version of the CS-200 Office can be supplemented with premium features and thus becomes a high-end workstation. For example with:

- ETM interpretation software
- SCHILLER exercise 12-lead ECG software
- Vector ECG software

MAXIMUM FLEXIBILITY WITH STANDARD FORMATS

SCHILLER uses industry-standard communication protocols, including GDT, HL7, HL7 aECG, DICOM and DICOM Modality Worklist to integrate the CS-200 Office into your environment and fulfil the requirements of your daily workflows.

The software SDS-200 Office can be installed on any PC or laptop with Windows 7 or Windows 8 Professional.

MS-12 BLUE

Free to move with wireless ECG

With the introduction of the wireless acquisition module MS-12 blue, SCHILLER provides a new solution that greatly simplifies ECG acquisition.

- ❖ Free to operate in any environment, whether in confined or wide spaces. Never worry again about cable length!
- ❖ Motion artefact is minimized by eliminating the analogue cable connection.

Clinicians will now be able to focus on what matters the most: patient care and ECG signal quality.

Small ...

The MS-12 blue weighs only 115 g (batteries included) and fits in one hand.

- ❖ Easy to move from one room to the other or from bed to bed.
- ❖ Sits comfortably on the bed or patient's body during ECG acquisition.
- ❖ Extremely lightweight patient cable minimizes motion artefact and ensures optimal ECG quality.

... but powerful!

State-of-the-art technology provides efficient power management and best performance.

- ❖ One battery charge guarantees continuous operation for more than 36 hours.
- ❖ With the power-saving mode of the CS-200 Office application, it is even possible to operate the MS-12 blue for more than a week with one battery charge only!
- ❖ Operating costs are thus greatly reduced.

CARDIOVIT CS-200 Office is also available with MS-12 USB (USB connection) instead of MS-12 blue (Bluetooth).
