

Lucky Tree

1. Take one of our incentive charts & turn it over. Draw a tree shape on the back & carefully cut the tree out.

2. Color the tree in using markers, crayons, colored pencils, etc. Decorate. In big letters write, "I am Lucky For..."

3. Attach our large foam kettle at the bottom of the tree using glue. Using a yellow foam sheet, cut out circles to use for coins. Glue the coins on or near the kettle.

4. Using our assorted green four leaf clovers, write something that you are lucky for on each clover.

4. Attach the clovers by removing the paper backing & sticking them onto the tree. Place them randomly like leaves. Add some stickers for flair.

6. Hang & enjoy!

By adding glitter glue, markers, crayons, etc. will make your tree stand out from the rest!
