

Reindeer Lollipop... by Shawnalyn Schult

1. Using the Reindeer Creative Cut-Out, draw an “X” on the nose.

2. With adult supervision, use an exacto knife or scissors to cut along the lines of the “X”

3. With a marker, draw the eyes and the mouth & insert the lollipop through the slits made in step 2.

Extra: Add another “X” above the one created in step 2 & cut. Weave the lollipop out and then back through the two holes created. This allows the lollipop to stay more securely in place.

Make it more personalized by adding “To: and From:” on the back.
