

St. Patrick's Day Door Wreath

1. Take a piece of cardboard & carefully cut out a circle to use as the backing for your wreath.

2. Using our small foam four leaf clover, remove the paper backing & stick onto the wreath. Continue with alternating greens until the wreath has been filled up.

3. Attach our large foam kettle at the bottom using glue. Using a yellow foam sheet, cut out circles to use for coins. Glue the coins onto the kettle.

4. Decorate.

5. Hang the wreath & enjoy!

By adding glitter glue, markers, crayons, etc, will make your wreath stand out from the rest!

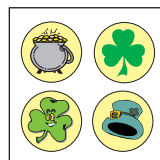

What we used:

SE-7289

SE-7507

SE-2541
