

# Aloha Nasal Pillow System (AL0125)

# **Lightweight Comfort**

The Aloha Nasal Pillows System is the next evolution in the design of the nasal pillow interface. Not only is this device **extremely lightweight and quiet**, but it offers an **incredibly stable and comfortable seal**.

The unique ball-and-swivel joint, along with a hose swivel, adapts to the most active of sleepers – all with minimal contact to the user's face.

The Aloha features a unique and exclusive system that allows the end-user to adjust the angle and depth of the nasal pillows – improving comfort and seal while minimizing potential discomfort.

### Performance Features

- Ball-and-swivel joint minimizes torque and pull to accommodate various sleeping positions
- Exclusive Arced-Track<sup>™</sup> technology
   allows the angle of the pillow reservoir
   to be adjusted for a more customized
   and natural fit
- CPAP hose can be routed over the head or worn down the chest
- Wide-set headgear provides limited points of contact on the face and no interference with the eyes
- Angled exhalation ports minimize potential disruption or discomfort for the user or bed partner
- Minimalistic headgear made of soft, pliable, and breathable material

## Design Features

- Latex-Free
- Four-Point adjustable headgear
- Removable and ultra-soft micro-fleece headgear wraps
- Simple to assemble and dissemble one piece reservoir design
- Supple, soft and stable nasal inserts
- Tubing Ring to secure hose, when routed over-the-head to headgear
- Headgear wraps included to maximize comfort
