

NE-U100

OMRON Portable MicroAir[®] Battery-Operated Nebulizer

Break free from respiratory restrictions with the OMRON MicroAir NE-U100 nebulizer. This small, handheld battery-operated nebulizer is portable for easy travel, and allows easy travel and discreet symptom treatment.

Super small nebulizer

with Vibrating Mesh Technology weighs only 4.2 oz and fits discreetly in the palm of your hand

Super quiet operation

<23 dBA; virtually silent operation

Tubeless and cordless design

offers respiratory relief wherever you go

Fast, efficient misting

delivers every drop of medication and without dilution to shorten treatment time

Works with most medications

as performance may vary with mesh nebulizers and medication used such as suspensions or high viscosity. Consult with your clinician for recommendation

360° operation

can be held in any position, laying down or sitting up
