## Data Sheet

# Heavy Duty High Chairs

Intersig's heavy duty high chairs are manufactured with larger wires for supporting heavier bars and mesh on site and in the precast factory. Their unique design eliminates any danger of puncturing the Damp Proof Membrane on ground floor slabs. Also known as Hystools and Deck Chairs.

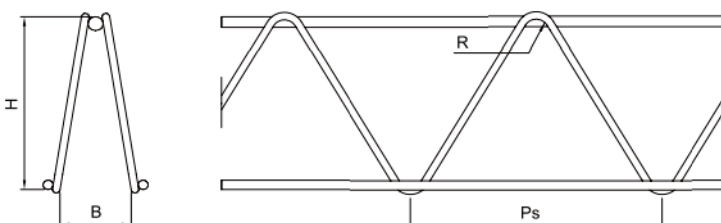

**Approved according to DBV specification.**

Product Code	Height (mm)	Bar Size (mm)			Length (mtr)	Weight (kg/mtr)	Pack Size (mtr)
A050	50	4.7	3.3	3.3	2	0.430	500
A060	60	4.7	3.3	3.3	2	0.435	500
