Wakaflex Lead Free Flashing

20 YEAR GUARANTEE

Wakaflex is an outstanding lead free alternative to conventional lead flashing.

Wakaflex is a non toxic flexible, self-adhesive flashing designed to replace lead in most modern roofing applications. This lead alternative can be stretched over details whilst dressing to give a smoother and neater finish. Wakaflex stretches up to 50% in length and 15% in width when dressed into the pan of the tile.

Features and benefits

- Stretches up to 50% in length and 15% in width when dressed into the pan of the tile, ensuring easy application for a wide range of details.
- Unique product composition allows self-welding of laps.
- Non toxic material has the appearance of lead with no scrap value.
- Perforated release paper allows easy application.
- Premium product offering a genuine alternative to lead.

Area of application

- Step or cover flashing at wall or chimney abutments.
- Top edge abutment detail.
- Saddle detail.
- Valleys.
- Suitable for new build and refurbishments.
