Data Sheet

Flat Base Mesh Support

Offering similar characteristics to the Heavy Duty Flat Base Clip-On spacer for purely horizontal applications. The Type 1 spacer provides the largest base area of all the flat base spacers in the range, offering superior performance, stability and peace of mind when supporting mesh reinforcement above moisture and gas membranes. The large base distributes loads over a large surface area minimising risk of perforation damage to the membrane.

Product Code	Cover (mm)	Bar Dia. (mm)	Type	Pack Size	Pallet Size
FB1520	15 - 20	8-16	1	500	16000
FB2530	25 - 30	8-16	1	250	10000
FB4050	40 - 50	8-16	1	200	16000
FB5060	50 - 60	8-16	1	200	13600
FB7080	70 - 80	8-16	1	200	7200
FB90100	90 - 100	8-16	2	100	5000

Material:

Copolymer Polypropylene

Stability/Storage:

Long term intensive influence of light (UV Radiation) can damage products of polypropylene. During storage, the items should be protected against sun exposure and bright daylight.
