Stock No.
19328

"DAVE SAYS"
QUALITY MAKES THE DIFFERENCE

HACKSAW BLADES
- Choosing hacksaw blades: Always use the blades that have as many teeth as possible in contact with material e.g. angle iron = 32TPI, square section = 18TPI
Blade teeth should always point forward, or as shown by the chevrons on the blades. Our Bi-metal blades combine the longevity of HSS with the flexibility of carbon steel.

HACKSAW BLADE TEETH SHOULD ALWAYS POINT FORWARD - LOOK FOR THE DIRECTION OF THE CHEVRONS ON OUR BLADES

5 1309
