Data Sheet

Rebar Safety Strip

The Rebar Safety Strip is manufactured from weather and impact resistant plastic. It is also quick and easy to use as well as being re-usable. The Heavy duty version has a steel insert which is capable of absorbing the impact of a 100kg mass dropped from a height of 3mtr (equivalent to a 3kN force).

Product Code	Type	Bar Dia. (mm)	Length (mm)	Pallet Size (no)
RSS	Plastic	8-40	1000	294
RSSHHD	Plastic with Steel	8-40	1000	294

Puncture Resistant.

Releasable.

Can be applied in horizontal and vertical positions.

Weather resistant plastic.
