

Specialists in Supply Solutions

EBP's Recessed Manhole Covers come in a range of standard sizes & loadings with various features to suit your project requirements.

Manufactured from steel & then hot-dip galvanised (BS EN ISO 1461) to increase durability, available in a range of loadings from 5 tonnes (FACTA Class AA) to the more heavy duty applications of up to 10 tonnes (FACTA Class AAA).

Our range includes covers that are suitable for a range of infill materials such as block pavers, flags, screeds & concrete. Cost-effective, pleasing on the eye & easy to fit!

EBP Standard Range

300 x 300 x 80	10 tonne	with built-in keys
