

PRODUCT DATASHEET

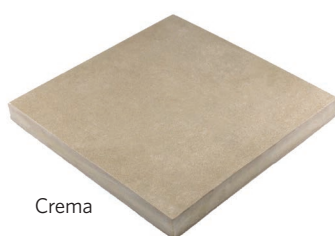

Porcelain Paving Tiles

Porcelain gives a subtle, contemporary look to any space. An extremely hard wearing material, it has very low-porosity and won't diminish or stain over time.

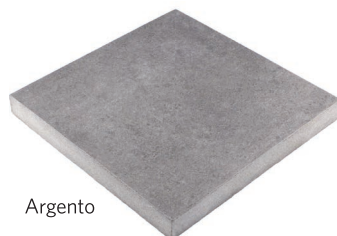

- 600 x 600 x 20mm slabs
- Anti-slip for greater safety
- Frost-proof
- Non-porous material: protected from fading
- Require very little maintenance

PRODUCT DATASHEET

Porcelain Paving Tiles

TECHNICAL SPECIFICATION

Technical Characteristics	Regulation	Value Achieved
Breaking Strength	UNI EN ISO 10545/4	Compliant
Chemical Resistance (Acid & Alkaline)	UNI EN ISO 10545/13	Compliant
Flexural Strength	UNI EN ISO 10545/4	Compliant
Frost Resistance	UNI EN ISO 10545/12	Compliant
Reaction to Fire	EN 13501-1	A1 - A _{fl}
Slip Resistance	Pendulum Test BS7976-2:2002	39 PTV (wet)
Stain Resistance	UNI EN ISO 10545/14	Class 5
Surface Abrasion	UNI EN ISO 10545/7	Compliant
Thermal Shock Resistance	UNI EN ISO 10545/9	Compliant
Water Absorption	UNI EN ISO 10545/3	Compliant

RECOMMENDED SYSTEM

We recommend Quadro and Albero porcelain is installed on a RynoPaveSupport System. One for every application, each offers the strength and longevity Ryno systems are best known for.

Ask about:

- RynoTerracePave Terrace System (class A fire-rated)
- PaveRail™ Paving Support system (class A fire-rated)
- RPA Self-levelling adjustable pedestals
- RPF Fixed-head adjustable pedestals
