Beautiful and environmentally friendly Hyperion Decking provides the perfect combination of

QUALITY

+

SUSTAINABILITY

Lasting low maintenance enjoyment for years to come.

HYPERION DECKING BENEFITS

Hyperion Decking is engineered from an innovative composition of 60% recycled wood, 40% recycled polyethylene and some environmentally gentle additives to help bonding and colour. This mixture of materials makes Hyperion Decking superior to traditional wooden products.

Low Maintenance

The boards never need to be stained or treated

Highly Durable

The boards do not rot, warp, split or splinter

Safe for the Family

High slip resistance and anti-splinter technology

Long Warranties

25 year residential,
15 year commercial

Quick Installation

Simple and seamless
hidden fastener system

Ethical Choice

Manufactured to minimise
environmental impact

PIONEER

HYPERION

D E C K I N G

PIONEER

The highly durable and anti-slip reversible decking is made almost entirely from recycled material. Hyperion Decking does not splinter, rot or warp, making it safe for you and your family to enjoy.

As this material never needs to be treated you save time and money every year over standard wood products.

Fully reversible board, choose between a rich textured wood grain and traditional decking grooves

Hollow channels run through the board, creating a strong and light structure

Easy to use hidden fastener system

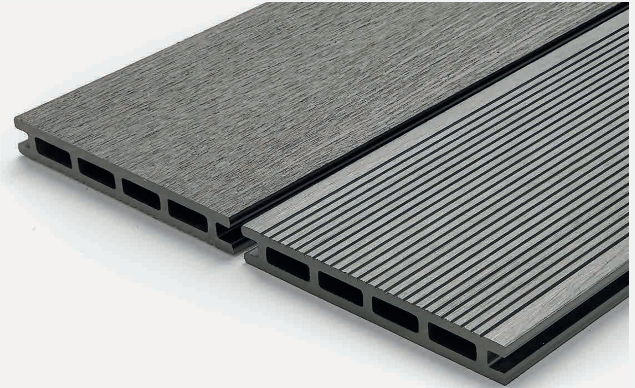

UV stabilisers within the board resist sun damage

Both sides have excellent anti-slip properties

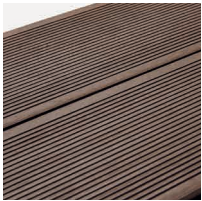

Enjoy your beautiful outside living space year after year with environmentally friendly Hyperion Decking. The Pioneer range comes with a 15 year limited residential warranty for your piece of mind.

- 15 year residential, 10 year commercial limited warranty
- Made from FSC® 100% certified wood and recycled HDPE
- 145 x 21mm profile – available in 2.2m and 4.0m lengths
- Matching cladding and fencing available

Feel free to send over your project plans to

info@envirobuild.com

*Lead time to mainland England & Wales. Special delivery solutions may incur additional charges

OUR MISSION

Here at EnviroBuild we are passionate about sustainable living and helping our environment.

The majority of the materials we sell, including our packaging come from recycled sources, which can be recycled again at the end of their life cycle.

QUALITY ASSURANCE

The products that we supply are designed to the highest standards, offering innovative and well designed solutions to current harmful construction materials and methods.

SUPPORTING SUSTAINABILITY INITIATIVES

We donate 10% of our profits to sustainable causes. We are currently supporting the rainforest trust who work with local communities and governments to protect endangered rainforests and species.

It is our aim to ensure that our activities and products are carbon negative and we help create real long term solutions without simply 'greenwashing'.
