

## PRODUCT DATASHEET

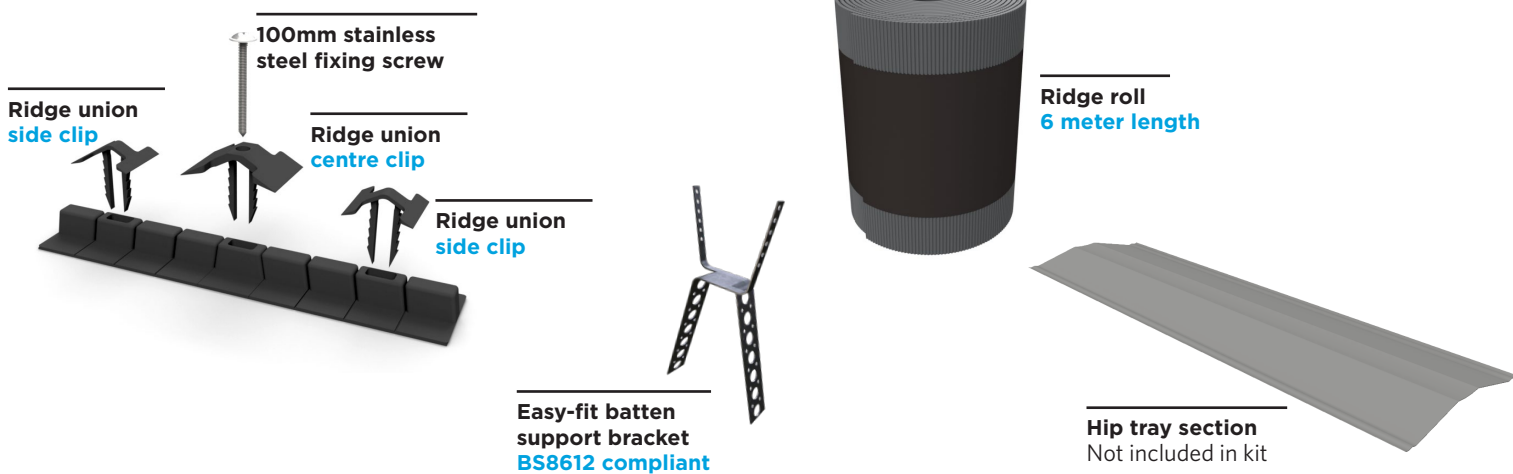

# Dry-Fix Ridge System

RynoRidge Dry-Fix Ridge System was developed for faster and safer ridge tile installation. Suitable for install in all weathers, it creates less mess and brings none of the problems that come with mortar: safer for building owners and more dependable for roofers.

- Complete compliance with NHBC, BS5534 & BS8612 standards
- Faster and easier way to achieve perfectly level, secure ridge tiles
- Suitable for ventilated and unventilated roof spaces
- 2 colour choices available depending on roof aesthetic and tile colours (RAL 7021 Anthracite & RAL 8019 Brown)
- In stock for next-day delivery from stock throughout the UK

## KIT CONTENTS

## TECHNICAL SPECIFICATION

Product material	Union	PP Polypropylene
	Clips	Polyamide
	Fixing Screw	Stainless Steel
	Batten Support Bracket	Galvanized Steel
Permeability	Ridge Roll fabric air permeability	270g/m <sup>2</sup>
	Ridge Roll fabric water permeability	3g/m <sup>3</sup> /24hr
Density	Butyl glue	1.7g/m <sup>3</sup>
Thickness	Coated aluminium edges	140μ
