Domestic Channel That Can Cope with Heavy Rainfall

“There is evidence that heavy rainfall events may have become more frequent over time: what in the 1960s and 1970s might have been a one-in-125-day event is now more likely a one-in-85-day event,”
(Met Office, Independent, Jan 2016)

February 2016, Rainfall per hour

162mm

figures taken from www.nw3weather.co.uk
