

PRODUCT DATASHEET

Stackable Paving Support Pads

RynoPaveSupport low height stackable paving support pads are the perfect solution where paving requires elevating off the ground by a minimal height. Simple to install and adjust, they are a very economical method of creating clear space below the paving, which allows for rapid water drainage. For use on totally flat surfaces.

SPACER TABS

Create a perfectly uniform gap between slabs

DRAINAGE HOLES

Ensure fast and efficient rainwater drainage

SIMPLE HEIGHT BUILD-UP

Supports can be stacked (up to 6 high for RPS range, up to 10 high for RPS-HD range)

SNAPPING SECTIONS

Supports can be easily snapped into halves and quarters for supporting slabs at edges and corners

THE RANGE

RPS-15
15mm Stackable

RPS-10
10mm Stackable

RPS-3
3mm Shim
For finer height adjustment

HEAVY DUTY STACKABLES

Feature multi-directional struts for massive compressive strength

RPS-HD15
15mm Heavy-duty stackable

RPS-HD2
2mm Heavy-duty shim
For finer height adjustment
