# CIRQLATE

CMS Cirqlate is specifically designed for cable protection when bringing power and data cables from the floor or ceiling to the work surface. It comprises three separate compartments for cable distribution. Because all components clip together simply, on-site adjustment is easy and quick by the addition or removal of extra pieces.

FLOOR TO DESK:
When used from the floor to the desk, Cirqlate provides an attractive and flexible solution for cable distribution. The delivered product comprises of the Cirqlate itself, a floor foot and a screw fixing anchor for the top.
When used with raised access floors, Cirqlate can be fitted with a special grommet base that can be locked into a CMS Cableway 1000 access floor grommet. This provides an easy and neat transition from the floor space to the workspace. Other mounting options available are the standard floor foot and wall plates (for mounting to a cavity wall). Customized mounting solutions are available by consultation. CMS Cirqlate easily provides all the power and data capacity you require all in one neat and attractive solution.

Standard colours are: Black, Silver, Clear, White, Aqua, Light Green, Dark Green, Dark Blue, Light Blue, Orange, Pink, Yellow and Dark Red available ex-stock with a full range of alternative colours subject to specification and minimum order quantities.
